

## RWE's German Gas Market Areas

■ RWE's transmission network consists of 26 entry- and 1,000 exit-points or zones.

| Market area comprising subgrids | Calorific value of natural gas |
|---------------------------------|--------------------------------|
|---------------------------------|--------------------------------|

|   |  |
|---|--|
| <span style="color: red;">—</span> RWE I (H-Gas)  | kWh/m <sub>N</sub> <sup>3</sup><br>10.6 - 12.8 |
| <span style="color: green;">—</span> RWE II (L-Gas)   | 9.5 - 10.7                                     |
| <span style="color: grey;">—</span> Sections of the RWE grid which are downstream of other market areas |  |
